

## **Evercare Group's Quality Conference Facilitates Collaboration and Quality Improvement in Healthcare**

**Dubai, UAE [22] May, 2023:** The Evercare Group successfully concluded its first-ever Quality Conference in Hyderabad, India last week. The conference brought together over 400 participants from across emerging markets, to share insights, collaborate, and drive quality improvement initiatives.

Over the course of two days, the conference highlighted the importance of the Quadruple Aim framework, focusing on Patient Outcomes, Patient Experience, Healthcare Worker Well-being, and the Value of Healthcare. 50 abstract submissions, 35 posters and 20 quality improvement projects were presented by both clinical and non-clinical staff, covering Patient Outcomes, Patient Experience, Healthcare Worker Well-being, and the Value of Healthcare. Collaborative discussions, informative guest speakers, and engaging poster presentations further enriched the event.

Speaking at the event, Evercare Group CEO Massimiliano Colella remarked, "Our Quality Conference exemplifies our commitment to delivering safe, high-quality care to patients across emerging markets. By embracing the Quadruple Aim, we ensure a holistic approach that prioritizes positive patient outcomes, enhanced patient experiences, the well-being of our healthcare workers, and the value we provide to the communities we serve."

Dr. J. Venkati, District Medical & Health Officer (DMHO) of Hyderabad, emphasized the significance of reducing healthcare costs. He highlighted the need for collaboration between private and government hospitals to mitigate expenses while upholding the highest standards of patient care and safety. "The Evercare Group's Quality Conference serves as a platform to promote dialogue and partnership among healthcare stakeholders. By working together, we can find innovative solutions to drive down costs without compromising on quality," stated Dr. Venkati.

The conference showcased Evercare Group's commitment to continuous improvement in healthcare. The presentations, discussions, and networking opportunities fostered knowledge exchange and collaboration among participants from Kenya, Nigeria, Pakistan, Bangladesh, India, and Dubai.

Evercare Group remains dedicated to its mission of transforming healthcare by promoting quality, accessibility, and affordability. The success of the Quality Conference reinforces its position as a global leader in delivering safe, high-quality care across emerging markets.

## **About the Evercare Group**

Evercare is an impact-driven company wholly owned by the Evercare Health Fund, a US\$ 1 billion emerging markets healthcare fund managed by TPG's the Rise Fund, an impact investing fund working with growth-stage, mission-driven companies that have the power to change the world. TPG's the Rise Fund is one of the largest impact investment funds in the world.

The Evercare Group is committed to transforming healthcare for millions of people in emerging markets. This is titled as The Evercare Group's vision of "Transforming Healthcare in Emerging Markets." Our commitment is underpinned by the UN Sustainable Development Goal 3 (SDG3) "Ensure healthy lives and promote well-being for all, at all ages".

Our integrated health platform comprises 30 hospitals, 13 clinics, 93 diagnostic centers, and 12,000 employees and Caregivers across Africa and Southeast Asia mainly in five countries: India, Pakistan, Bangladesh, Kenya, and Nigeria. We focus on the "double bottom line": bringing high-quality care to traditionally underserved communities, while building a robust business and achieving measurable and sustainable returns. Since inheriting the platform in 2019, Evercare/TPG has transformed the organization strategically, operationally, and clinically while still delivering robust growth.
